We then wrap your print over a solid 18mm block which can sit tighter against the wall than any other wrap we offer.

It has become an alternative to the Canvas Wrap where the customer likes the 'off the wall' look but prefers to keep all of the image tucked neatly into the frame moulding. ## Colored Edge Blocks

This simple yet effective product is created by first printing a high quality photographic print. The print is then flush mounted onto a thick MDF block and an anti-scratch printseal is applied to its surface. The edges of the MDF are then coloured using state of the art equipment, which produces a unique sharp, modern edged look. The final touch is the split-batton easy to use hanging kit, which (standard but optional as alternate flush fixings can be supplied) enables the product to stand proud from the wall leaving behind a 'drop' shadow and your guests wondering how you did it.

All of the colours are also available with beveled edges, adding an altogether new dimension to the product.
